SIMULATOR

Step 1 is easy because we have one TennisTEC™ simulator model, the TennisPOT. It's fun and great for tennis training, cardio work outs and developing muscle memory. Put this in your sport club for players to book for practices, training or entertainment. See your ROI in one year (varies with different customers). Your delivery will include our tennis simulator, PC Touchscreen Kiosk, a motion sensor, a HD projector, screen, speakers and projector screen. Before shipping to our customers, we make sure it goes through our 21-quality inspection. Contact us for our different financing program and maintenance plan. Simulators start at \$34,999*.

** Cost do not include labor and travelling expenses. Every installation is managed by an experienced Project Manager from start to finish. Once a purchase order is approved, the purchase include an initial visit to plan and prep the area for the simulator. Delivery is 8-12 weeks and machine installation plus training can be done in a few days.*

ENCLOSURE

Step 2 is to select your cage and let us quickly install if for you. Or you can do it yourself and we'll share the design specification. Either way, our support team will help you every step of the way to get you up and running as soon as possible. Our cages are constructed with aluminum or heavy-duty steel grade structures and comes with ball slope collector. The minimum cage dimension is 16' (W) x 20' (L) x 10' (H). The minimum court space required is 18' (W) x 40' (L). Enclosure starts at \$10,499*.

INTERIOR

Step 3 is to select the accessories to customize your court for the ultimate tennis experience. Make it feel like one of the Grand Slam surfaces including hard, grass and clay. Or do it yourself to design your own look and feel. Our interior package includes side & top nets, side & top covers, (1) led strip lights with remote, (1) 20' (W) x 45' (L) artificial grass, and (1) 20' (W) x 45' (L) clay carpet. Interior Package starts at \$5,499*.
